FACTUAL ALLEGATIONS

- A. On or about June 2, 2020, the Michigan Board of Medicine ("Board") issued a Final Order suspending Respondent's medical license for six months and a day and fined him \$5,000. The Order also stated that reinstatement of a license which has been suspended for more than six months is not automatic.

The Proposal for Decision documented that Respondent was 1) negligent in some respects; 2) negligent and incompetent in numerous other respects; 3) lacked good moral character, in his treatment of, and his prescribing of controlled substances to, numerous patients by actions such as failing to address evidence of abuse or diversion and by failing to enforce pain management contracts, 4) that Respondent possessed and prescribed drugs for other than lawful purposes, and 5) that he failed to comply with the Board's lawfully issued subpoena.
